DISTRIBUTION

CREATING VALUE FOR OUR PARTNERS

Wencor is the aftermarket aviation expert that consistently delivers high-quality products and services. We aim to increase availability and reliability across the aerospace industry to build and maintain trustworthy relationships with our customers.

Wencor is the specialized distributor and solutions provider for numerous industry-leading manufacturers and suppliers reaching across 6 continents. We strive to consistently deliver quality product options and availability for our customers while ensuring competitive pricing. We utilize our technical expertise, market intelligence and top-quality parts to build trust, confidence, and value with our partners. We commit to providing a service experience that's second to none.

We make it easy to get the parts you need when you need them 24/7.

PMA PARTS

DELIVERING PMA AVAILABILITY, RELIABILITY AND COST SAVINGS FOR 30+ YEARS

Wencor has a proven record for developing and engineering better options for high usage, complex and expensive OEM parts. With over 7,000 PMAs created to date, our products actively support a broad range of systems including pneumatics, hydraulics, engines, APUs, landing gear, cabin interiors and airframe parts. More importantly, our FAA-approved components offer improved availability, reliability and a lower cost of ownership when compared to OEM equivalents.

THE WENCOR DIFFERENCE

-  Delivering uncompromising standards of PMA engineering in a lower-cost option, Wencor's high level of expertise can also incorporate significant improvements to result in a more reliable aircraft component.
-  Among the first PMA companies to be awarded the FAA's Organizational Design Authorization (ODA) in 2009, Wencor can significantly reduce the time-to-market of your PMA development projects.
-  Our design and engineering processes address many of the pain points and limitations of OEM products. Shorter lead times and greater availability are key contributors to reducing TATs and AOG losses.
-  The FAA has delegated Wencor the authority to perform specified engineering, manufacturing, operations, airworthiness and maintenance functions on its behalf.

PMA

ENGINEERING BETTER OPTIONS

For over three decades, Wencor has developed high-quality and competitively priced PMA parts using state-of-the-art engineering tools and techniques to support the growing demands of an ever-increasing worldwide customer base. We supply PMAs to commercial, business and general aviation customers through the development of customer-optimized components, owner-operator parts and build-to-print parts. Our PMAs cover virtually every system of today's aircraft, often providing reliability improvements over the original part.

SYSTEMS SUPPORTED

- Air Cycle Machines
- Hydraulics
- Airframe
- Landing Gear
- Auxiliary Power Units
- Pneumatics
- Cabin Interiors
- Starters
- CSDs, IDGs & Generators
- Thrust Reversers
- Engines
- Fuel Systems
- Other Systems

Please visit wencor.com to learn more about the thousands of available PMAs we currently have in stock.

STRATEGIC FOCUS

Wencor strategically focuses on lowering the cost of aircraft ownership

through consistent quality and reliability improvements. With dedicated resources, we can design solutions, develop programs and deliver results by customizing and scaling solutions to meet your needs.

MRO

8 MRO CENTERS OF EXCELLENCE

MAINTENANCE, REPAIR & OVERHAUL

OUR PRECISION AND EFFICIENCY DELIVER A SUPERIOR CUSTOMER EXPERIENCE.

Wencor MRO is comprised of the leading repair companies in the industry.

Offering comprehensive solutions for your aircraft's interior, mechanical and electrical systems, we are able to service all your maintenance, part replacement and repair needs. Also, our invaluable MRO data allows us to constantly engineer improved part designs and build standards. Our coverage of nearly 100% of component repair parts along with our focus on reliability improvement and consistent turn times are key contributors to the proven partnerships we've established with major airlines worldwide over the years.

DEFENSE

DEPENDABLE SERVICE FOR THE DEFENSE INDUSTRY

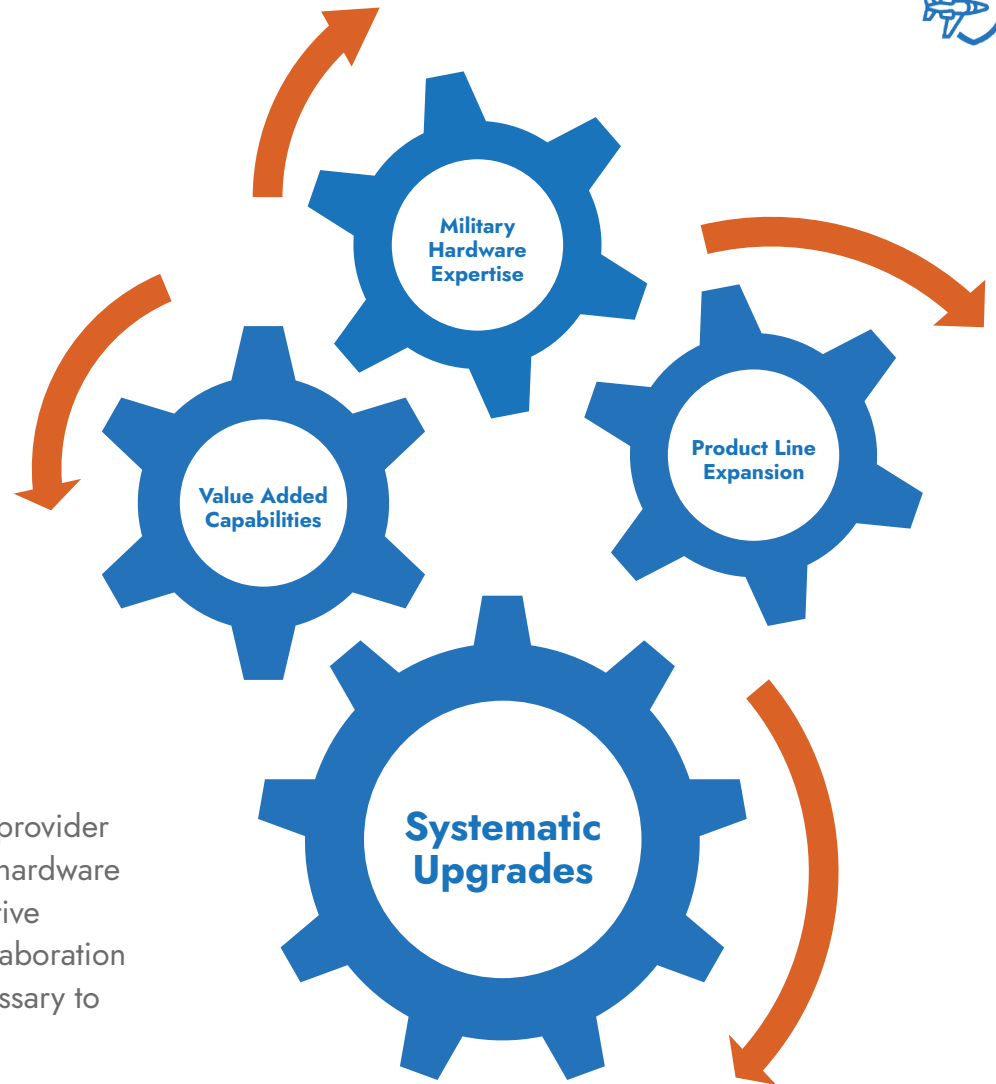

Wencor Defense has 120 years of combined experience between [Aero-Glen International](#), [ASC Industries](#) and [Kitco Defense](#). Each of these companies offer reliable, trusted services and solutions and collectively create synergies benefiting the defense segment.

- SAR Development (1,200 SARs currently in production)
- Premier Provider of Kitting Programs
- Value-Added Services
 - Inventory Management
 - Consignment
 - 3rd Party Logistics
 - Supply Chain Solutions
- In-House Engineering
- C-Class Hardware Distribution Services

DEFENSE SYNERGY

Wencor Defense is the premier provider of Kitting Solutions and C-Class hardware distribution services. Our collective expertise driven by strategic collaboration provides you with the tools necessary to shift you into high gear.

Military Hardware Expertise

- Exclusive Distributorships
- High-Volume Capabilities
- Expansive Defense Customer Base

Value Added Capabilities

- Higher-Level Quality Requirements (FAT, CSI)
- Kitting and Assembly Proficiency
- Engineering Support (SAR)
- High Value Distribution Products

Product Line Expansion

- Adding Strategic Product Lines to Support Customer Requirements

Systematic Upgrades

- Defense Systematic Module
- Wencor Defense Data Warehouse

SERVICES & SOLUTIONS

HELPING OUR CUSTOMERS FIND EFFICIENT AND RELIABLE COST-EFFECTIVE SOLUTIONS

STREAMLINED PROCESS DRIVES EASE AND EFFICIENCY

Our success is built on our quality products and service offerings, as well as our commitment to our customers.

The recognition and awards we've earned over the years are a testament to a shared mindset that keeps our people and our company on course. Our mission is always achievable—that of consistently striving to deliver both innovative solutions and complete customer satisfaction.

Experience the Wencor difference with a simple call or click today.

Please visit fly.wencor.com to create a Wencor account. By creating an account, you will have access to all the Services & Solutions that Wencor offers; including E-commerce.

CREATE AN ACCOUNT AND RECEIVE THESE BENEFITS:

- + 24/7 access
- + Pricing immediately available
- + View available stock & lead times
- + Download PMA supplements & technical documentation
- + Keep track of your search order status & history
- + Access to related PMA parts & NHAs
- + Download & submit purchase orders
- + Order on terms or with a credit card
- + 24/7 AOG support

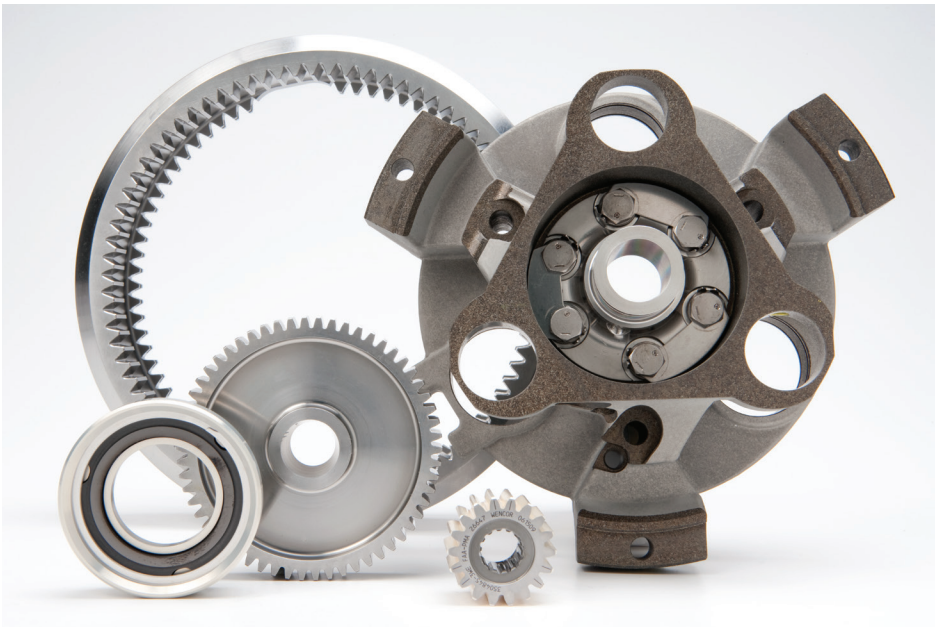

ENGINEERING SOLUTIONS

WENCOR ENGINEERED PARTS

Wencor is a leading independent supplier of FAA-approved aircraft parts, with over 7,000 PMAs. Our engineering and product development teams work closely with customers to identify opportunities and provide solutions that optimize both operating and cost efficiencies. FAA-PMA parts allow customers to meet availability, economic and performance requirements that help them stay competitive in the industry. Wencor’s one-stop capabilities can help your organization end-to-end, from identifying PMA opportunities with market analysis, through project management, to measuring results and the success of your Wencor-engineered solutions.

Wencor produces more than 350 new PMA parts each year using state-of-the-art equipment for measurement, design, analysis and product development.

PMA's

KITTING SOLUTIONS

With over 30,000 produced since 2000, Wencor Kits simplify workflow by reducing the time, effort and cost involved in prepping for an equipment repair or overhaul. Everything needed to perform your task is packaged for easy identification, convenient access and use. Reduce costs associated with purchasing, receiving, inspection, accounting, inventory control and parts requisition through the use of Wencor Kits.

Wencor productivity benefits include:

TECHNICIANS

- Eliminates technicians searching for components
- Alignment with step-by-step CMM instructions

PROCUREMENT & ACCOUNTING

- Single purchase order for multiple parts
- Simplified invoicing

WAREHOUSE PERSONNEL

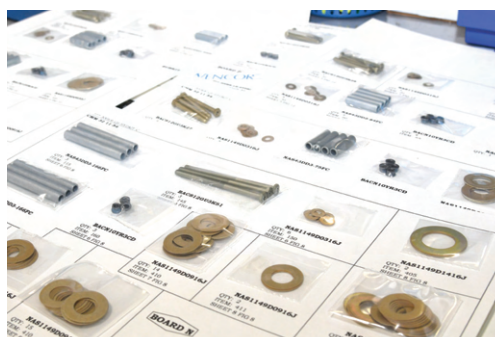

- Eliminates the need to search for parts
- Customized to customer's needs
- Includes PMA parts to lower costs

WENCOR KITTING ADVANTAGES

- + Customize kit layout and parts to your content and schedule needs
- + Simplify order process with one line item per kit
- + Align kit to work instructions
- + Reduce inventory investment

POPULAR WENCOR KITTING SOLUTIONS FOR COMMERCIAL & DEFENSE APPLICATIONS

- Landing gear
- Component / Engine Overhaul
- MRO Builds
- Retrofits
- Maintenance checks

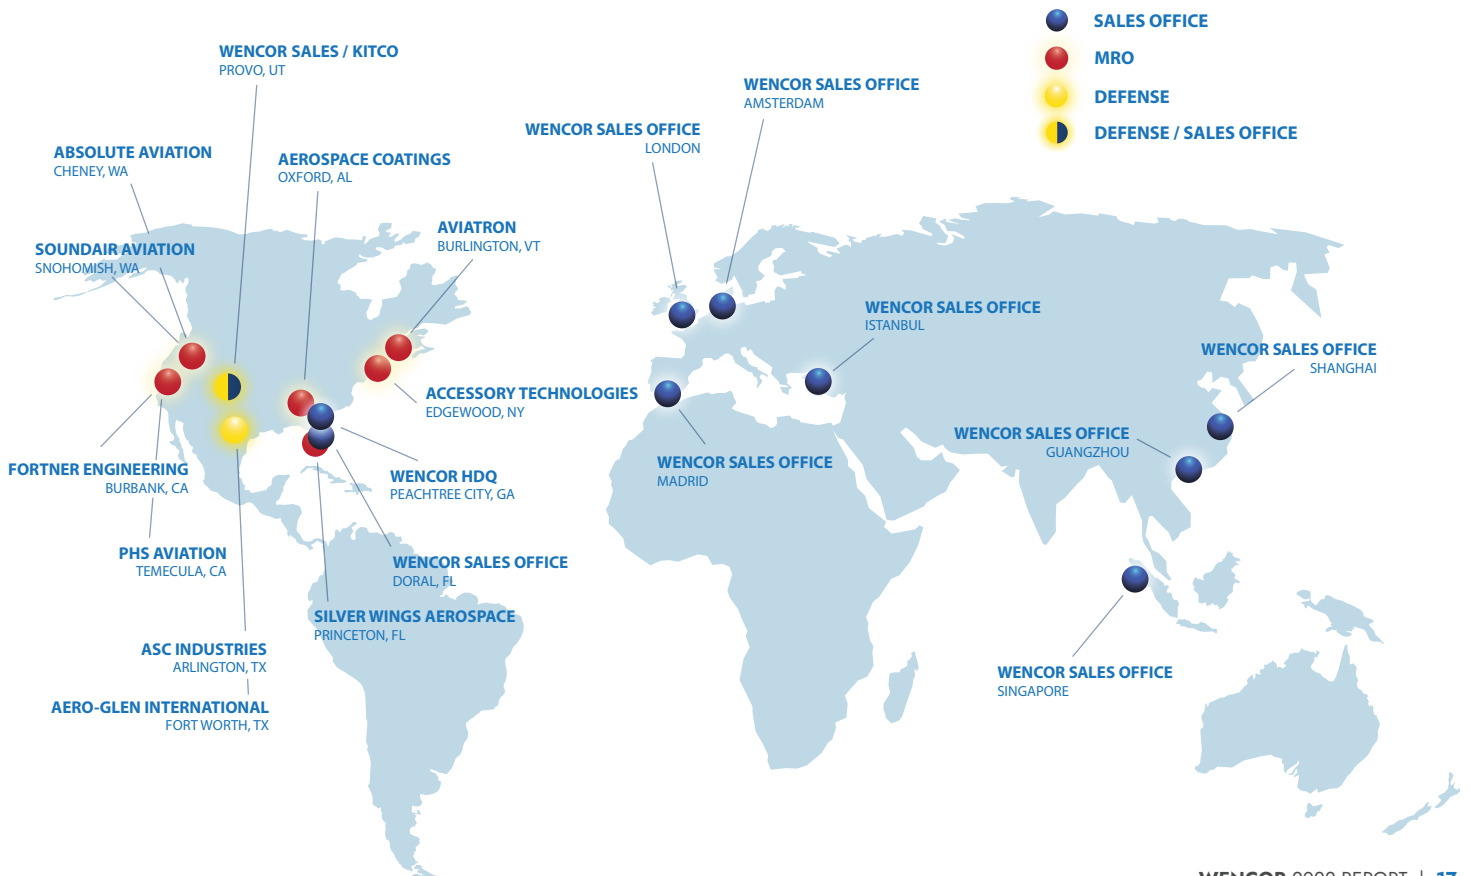

SERVING THE WORLD

GLOBAL SOLUTIONS

Proudly comprised of several of the top companies in the industry, Wencor is meeting more customer aviation needs worldwide than at any time in its history. With our constantly expanding network of maintenance and repair facilities as well as

stocking and distribution hubs and internal offices, we've established ourselves as a leader in developing Total Material Solutions to provide exceptional service for a broad range of airlines and aerospace customers.
